

Submitter: JL Wilson
On Behalf Of: Oregon Airport Management Association
Committee: Joint Committee On Transportation
Measure: HB2269

Co-Chairs Gorsek & McLain -

The Oregon Airport Management Association supports HB 2269. We support the agency's efforts to move their fee authority to rulemaking.

The members of OAMA have good rapport with the agency and Aviation Board and are comfortable with the public process and stakeholder input that fee-setting would entail. We also believe that the agency, the industry and stakeholders would benefit with more agency flexibility to set fees to meet needs in real time.

OAMA is supportive of HB 2269.
