On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB579

This is such a ridiculous idea to allow our worst in society to have a vote on any topic, what is a matter with you people. These convicted felons are being rehabilitated because they have made bad choices and now you want them to have a voice or say in how are laws and rules for those in the area are to live. Wake up, life isn't fair for you if you make bad decisions and its time you all start making better decisions about how to run our state.
