Committee: House Committee On Education  
Measure: HB2257

HB 2257 HOUSE COMMITTEE ON EDUCATION

The legislative writers/submitter could not put a dollar amount on School Safety Construction Fund? Exactly how is Oregon taxpayers expected to support a Bill without a base dollar amount for legislative spending? The ridiculousness to not carry through on presentation, a legislative duty of the first reading of a Bill, not just outlining the fund, is to include the amount of appropriation the fund will receive?

Seems that introducing 700+ Bill for the 2023 Legislative Session was more important than the quality of the Bills themselves?

How much of HB 2257 be appropriated federal grant money by way of the American Rescue Plan Act – School Health Upgrade Systems due to Covid-19?

Incomplete Financial Cost Analysis by writers of Bill Text Excerpt:

SECTION 1. (2)(a) The School Safety Construction Fund consists of moneys that the Legislative Assembly appropriates each biennium for the purpose of replenishing the School Safety Construction Fund. To the extent practicable, the JOINT COMMITTEE ON WAYS AND MEANS shall allocate moneys for the School Safety Construction Fund from moneys the state retains in the General Fund under Article IX, section 14 (3), of the Oregon Constitution.
