On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB579

I would support SB 579 under the following conditions.

1. Those eligible be limited to those in transition.
2. The incarcerated person would be provided an environment where they were not vulnerable.

I would support SB 579 with these conditions because it will make SB 579 acceptable to party's with different positions.

Thank you for the opportunity to submit this testimony.
