

**I am NEUTRAL concerning [HB 2908].**

**I would support [HB 2908] but...taken from the Text [Page 2, at (13-15)], "... (2) A small business development center may apply to the department for a grant to be used for projects that include, but are not limited to: (a) Business incubation for targeted industries." This torpedo sinks the [HB 2908] ship.**

Not all 'Business incubation centers for targeted industries are bad, I just have never seen any that are good ones.

In Yamhill County, McMinnville to be exact, the Three Mile Lane proposed, "Business Incubator" is a damning presentation of a Municipality who have "fallen-off the wagon."

On the other hand, if [HB 2908] could facilitate: [SB 647 (Cottage Foods)] and [SB 507 )Farm-direct sales] now we're talking viable success stories and revenues for everyone so concerned.

Rewrite [HB 2908] and strike, "...: (a) Business incubation for targeted industries..." and you'll have a winner!

David S. Wall, *pronouns* (F/U)

Mr. Oregon Concur..."Screw" the Three Mile Lane Project in its' entirety.
