### **RE: Support of HCR 12 – In Memoriam: Frank Moore**

The North Umpqua Foundation adds its support of the House Committee Resolution 12, honoring the late Frank Moore for his outstanding contributions to society and conservation throughout the Pacific Northwest and beyond.

Without needing fanfare, but with the need to protect the land and river he loved, Frank's determination is well documented and for which he will always be remembered.

For those of us who were honored to call him a friend, he will also be remembered for showing us not only how to care for the river but also to care for each other. Everyone I know will tell you Frank made them feel like they were his very best friend in the world, would do anything for them and inspire them to do the same.

Frank and his wife, Jeanne, were always a team. She helped him to protect the beautiful North Umpqua River and he helped her collect specimens for the Glide Wildflower Show. Then, there is the impact they had building Steamboat Inn and inviting the world to visit our beautiful "neck of the woods."

The North Umpqua Foundation is honored to support this resolution to honor such a great gentleman.

Sincerely,

*Becky McRae*
