

Submitter: Joseph Ellsworth

On Behalf Of:

Committee: House Committee On Economic Development and Small Business

Measure: HB2505

This increased tax would put a massive burden on my family, friends, co workers as well as myself. I already cant afford to buy eggs or steak and increasing the tax on cannabis would mean that I cant afford to buy cannabis, which helps with so many things in my life. I am a cancer patient and it helps me with anxiety and depression as well as sleeping and so many other things. Please DO NOT increase the cannabis tax as this would only hurt people.
