### **Outstanding legislative protection of Special Districts Association of Oregon FUNDS!**

All too often, in the jurisdiction I hail from, before moving to Oregon, "Restricted Use FUNDS" were routinely raided by the City Council or City Manager for whatever reason they chose. No one paid much attention to this practice until one day, an employee of the organization initiated a series of financial inquisitions. Successful efforts brought swift and uncomfortable change with many "royal backsides" being quite singed in the process of restoration of the sanctity of the aforementioned FUNDS.

Mr. Stratton's testimony and dedication is nothing short of outstanding public loyalty and stunning financial analyses and protection of the Special Districts Association of Oregon FUNDS.
