

## I OPPOSE [SB 629].

Senator Lieber and Representative Nelson present [SB 629] but fail miserably in educating the voters to what service(s) the Oregon State Hospital Advisory Board provides.

There are serious issues concerning the composition of the aforementioned 'Board.' Members are 'political appointees' and may not have the experience and or education to make and give competent medical management advice. Plus, there is always the Doctrine of "Conflicts of Interests" the political appointees may bring along with their appointment to the Board.

[SB 629] also does not discuss the actual cost, in taxpayer dollars, required to support the Oregon State Hospital Advisory Board.

Modifying a "Board's membership" without providing the information previously discussed, dooms [SB 629].

Should the Oregon State Hospital Advisory Board be dissolved?

David S. Wall

Mr. Oregon Concur...Throw [SB 629] to the dogs.
