

Submitter: Norma Morehouse

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR5

To the Chair, Vice Chairs and Committee Members. I support such a bill for Oregon because for generations my family has provided clean organic protein to support the well being and health of my family and I wish to guarantee that nourishment and skills to gather, to the generations that are to follow me. As a healthcare provider I have seen the consequences of poor nourishment at all age levels. Thank you for your time to read my statement.
