

I SUPPORT [HB 2711].

Representative Scharf should be supported in the passage of [HB 2711].

The "pool" of qualified providers sometimes runs dry. Therefore a serious problem of providing consistent care for the child will minimize anxiety and other emotional problems.

The ability to use a previously authorized provider is an excellent "safety valve.."

Good job Representative Scharf!

David S. Wall

Mr. Oregon Concurs...Prior providers work very well.
