

Submitter: Kelly Parkman  
On Behalf Of: Oregon Hunters Association  
Committee: House Committee On Rules  
Measure: HJR5

To whom it may concern,

Please take action in favor of HJR5 so all Oregonians are secure in their right to harvest and consume the foods they hunt, fish, and gather in a state abundant with these natural resources.

As a Learn To Hunt instructor, each year I see more Oregonians from all walks of life turning to the outdoors as a means to augment their families diet while increasing their self sufficiency. I even picked mushrooms for the first time!

The fastest growing segments of new outdoors people are hispanics, women, and first generation legal immigrants. These are also the people who become new stewards of Oregon's beautiful resources. Let's ensure it remains that way.

Your favorable consideration in this matter is truly appreciated.

Sincerely, Kelly Parkman President Hoodview OHA. Lead Instructor OHA Learn To Hunt program.
