

Submitter: NW Coastal Range

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB799

Very much oppose SB 799, the Oregon Legislature has the idea that all landlords are wealthy and can afford to go along with delays put upon landlords in this legislative bill. A Bill that would prolong reattaining their legal property from a renter. Oregon Legislators are getting way out sink with what Oregonians want and have always been. Independent, hardworking, make it on your own Oregonians. Have you ever heard of hitting rock bottom before a person will attend to better their life.

Instead Salem has began a free for all campaign, and intend to give away as much as possible of the taxpayers dollars, so Oregonians will have to pay to drive on roads, pay this fee and that permit, and pay for inspection this or fine that, while giving people a free ride. All started with Governwhiner Brown. Citizens pay taxes to make Oregon livable with the least interference from government as possible. Grant or fund every occupation under the sun, is nothing more than a transfer of wealth from citizens to corporations to fund projects that most corporations could fund themselves. Seems altruistic to most people that are left only with a tax bill and not much else but increased fees and fines, and limiting ability of people to be free by upping the stakes of criminality. For what? Legislature want unhappy residents, or the population to flee the restraints of Oregon's outrageous policies and laws? Or is the Legislative body so disconnected from everyday life of a citizens, just say, "oh that sounds good, let's do that, while effecting millions of people?"
