

Submitter: NW Coastal Range

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB541

The Civil Rights issue was resolved in 1964, why does the federal and state legislative body keep rehashing the same issue over and over? Oregon Legislature is slowing business and government processes down and causing delays in getting processes done. The federal and state woke democratic agenda is peeling away the layers of citizen cohesiveness with one another. Possibly it's the plan to cause divisiveness and fractions; many say "it doesn't even feel like America anymore". Corporacrats and Technocrats = Plutocratic legislators, that get all the benefits and the working persons is getting less of a quality of life. There are now two divisions in American society, those that must follow the law/punishment and those that believe their wealth/political power that the law/punishment does not apply. Where American society pays and follows tax/tax rules and those that have political power and/or wealth will expend huge amounts of money to get around a tax loophole, even if it costs more than the original tax just to brag about playing the tax code to their benefit. More or less, steal from the less well-off to transfer to the wealthy. Politicians brag to citizens of new tax for corporations and wealthy, but there is NO LIMIT to the quantity of years of using carryover credits, so don't blow hot air up citizen taxpayers \_ \_ \_ \_ . Any new tax legislation is null and void considering if the legislature acknowledges carryover credits, which politicians will not because would interfere with campaign donation stream of the wealthy, and co-mingling campaign funds with super-pacs on the federal level, which is the the AGI starting point of Oregon Form 40.
