

Submitter: Byron Smith

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB455

Committee members,

Thank you for the opportunity to share with you the City's support to create a funding stream for testing on aquifer recharge projects. It will make it possible for us to truly make progress on rejuvenating our aquifer and not place all of the burden on our existing rate base as we test these ideas. Thank you for your consideration.

Byron Smith
City Manager
City of Hermiston
