Chair Jama, Vice Chair Anderson and members of the committee,

I live in Garden Park Apartments in southeast Portland and support SB599 as it addresses two local problems. One, the difficulty to find child care as we sort of start normalcy with schools open and parents retuning to work but not finding local child care. Two, allowing people to remain in their apartments while providing a service to their neighborhood. These day cares will be subject to local and state laws, of course. Noise should not be a problem as children were home when schools and libraries were closed and it was not a problem then.

I hope you and your committee support SB 599 as I do.
