

I OPPOSE [HB 2505]: "JUST SAY NO!"

Looks like Marijuana money is more addicting to fund services cities, counties and state now rely on.

City after city, county after county and the state legislature moan they can't make their budgets without increasing the Marijuana sales tax.

Or, is increasing the Marijuana sales tax, a prelude for the imposition of additional sales taxes?

The local Drug Cartels support the sales tax thereby making their illegal drugs cheaper.

Why "Kill the Goose that lays the golden egg...err..Bud?"

Marijuana sales tax increases will: cause many businesses to fail, laying off employees, increasing personal indebtedness, possibly increasing Homelessness and have deleterious effects on surrounding business, which translates into more tax revenue to be lost.

David S. Wall

Mr. Oregon Concurr..."Don't Bogart that joint...my friend."
