

Submitter: Emma Shipp  
On Behalf Of: Lewis and Clark Montessori Charter School  
Committee: Senate Committee On Education  
Measure: SB767

I have 3 children at Lewis and Clark Montessori Charter School and it has been an amazing school for all of them. They have searched long and hard for a building that fits their needs instead of having to rent a building and they finally found one in Fairview. The building is extremely close to the Gresham boundary but not quite there. This measure would mean that they could not buy this building and all the children would be out a school unless they were able to find yet another building in time to get it ready for next school year. Buildings that work as a school are not easy to find.
