

Submitter: Bo Davidson
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR5

We need HJR 5 to ensure that our ability to source our own food remains intact. The pandemic and recent natural disasters have shown that we can't always depend on stores to have what we need. For those of us who have spent time afield we know that nature can be our own grocery store. Generations who have lived here found success because they knew where to find food and passed that on to us today. It is a great sense of pride to know I can find food in Oregon's lands.

Please consider passing HJR 5 and giving the people of Oregon a chance to register their voice supporting a Right to Food. Current and future generations should not have to worry if they will be able to gather mushrooms, pick berries, catch fish, or harvest game for food when no other food is available. This amendment would protect these rights so many others have enjoyed.
