

Submitter: Matthew Walworth
On Behalf Of: Lewis and Clark Montessori Charter School
Committee: Senate Committee On Education
Measure: SB767

My daughter, Abi, goes to Lewis & Clark Montessori Charter School. After covid, the changes in our family, and the simple need for continuity, please do whatever you can to keep Lewis & Clark Montessori Charter School in business. My daughter was recently diagnosed with dyslexia by a specialist. I'll be taking her to Kaiser Permanente for help, but it would hurt my eight-year-old child if she had to switch schools. If they need to find a building that's immediately outside the school district, please allow for them to continue their work with kids. I'll be silly for a second. School buildings for 400 students don't grow on trees. I once heard you'd need to build 7 elementary schools in Portland to keep up with growth. If Lewis & Clark Montessori Charter School can continue to help these 400 kids, please allow them to.
