

Submitter: Emma Purvis  
On Behalf Of:  
Committee: Senate Committee On Education  
Measure: SB767

I love Lewis and Clark Montessori Charter School because I made some friends, and learned so many cool things I never knew. If the school moved I would be separated from my friends. And have to still go to school some place else. And start a new school and almost new life (in some way). I also want Lewis and Clark Montessori Charter School to stay open, because it has been open for 14 years now, going on 15. If I had to leave Lewis and Clark Montessori Charter School it would be devastating cause here I feel safe and supported, and helped me and my learning journey. I also don't want to go to a school without pets or even plants. I hope you can take Bill 767 down. Hoping, Emma :)
