

Submitter: Justice Evans
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB767

I have worked as a teacher with Lewis and Clark Montessori Charter School for nearly all of its 14 years. Unfortunately, we are forced to relocate due to unforeseen lease termination by our sponsoring district, Gresham-Barlow School District. It is very difficult to find a building to house our 400+ students and staff within the abbreviated time frame to which we are subject. While we have found a building, it is located less than 1000 ft outside the boundary of our district. This means that, due to the passage of SB 767 we would be forced to close. This would be devastating to our families and staff, and our community. Please do not vote in support of this bill.
