

Submitter: Susan Killian

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR5

Dear House Committee Members -

I strongly oppose the passing of HJR5 as it clearly circumvents the rights of the voter to use the ballot initiatives to update and modernize issues of wildlife conservation. I am, and always will be, in strong opposition to any bill that jeopardizes the welfare and conservation of any wildlife. I ask that you do not pass this bill for these reasons. Thank you for your thoughtfulness and mindfulness on this issue.
