

Submitter: Teresa Trimble
On Behalf Of: Pinehurst School
Committee: Senate Committee On Education
Measure: SB767

I live in the Greensprings and my home is in the Pinehurst School district. John Adams Academy - a company located in California worth \$88 million wants to start a charter school in southern Oregon. They are looking at Pinehurst school to oversee their charter school but want to locate their school somewhere else - perhaps in Ashland. This doesn't make sense me. Please stop this predatory action by passing SB767 in order to protect this small rural school district.
