

I am NEUTRAL on [SB 710].

This subject matter for Legislation has been needed for a long time.

I hope I'll never have to venture down this road for it is fraught with peril. Just reading the "Text" invokes scary scenarios of disputes future. Bad-blood has been made over water for centuries.

[SB 710] will be the initiation of, "The Battle of the Experts." and who ever are the warring parties, both sides will spend a ton of money to prove their case.

David S. Wall
Mr. Oregon Concurs.
