On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

Oregon schools are failing kids. Charters offer parents a choice and children hope. There is a reason that charter schools have wait lists. Imposing more restrictions on charter schools will only hasten the race to the bottom that Oregon public schools appear to be engaged in. Parents should have a choice about their children's education. This bill would remove that choice and make them further beholden to local school boards being run by their own agendas.
