

Submitter: Bibiana Greeny  
On Behalf Of:  
Committee: Senate Committee On Education  
Measure: SB767

I oppose bill SB 767 precisely because it limits alternative education for the children in Oregon. Any form of limitation goes against free decision making of parents, students, teachers and administrators of alternative schools. In order to support diversity, government should facilitate the development of alternative education systems allowing them as much autonomy as possible. The ongoing increasing demand for charter schools proves the need of families to access education models that suit them. This bill is a threat to ongoing and emergent charter schools and should not be allowed. Thank you.
