

Submitter: Elizabeth Wurdinger

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR5

Dear House Committee:

I am a 5th generation Oregonian and it is my right as a citizen of Oregon to have the ability to hunt, fish, and garner wild foods to sustain health and well being. It is also my obligation to share experiences with the next generation so they have other avenues to provide food for their families. It is unfortunate that we have to fight for a right to put food on the table that does not come from the grocery store. Let us join with the other 23 states that have passed a constitutional protection for the right to fish and hunt.

Thank you,
Liz Wurdinger
