

Submitter: Brady Camp
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR5

I support this Amendment 100 percent. Hunting and fishing has provided my family with the meat and sustenance we survive on everyday. My wife and I come from a long line of hunters who diligently follow the laws and regulations and hold conservation with the highest regards. Hunting is not a recreational activity for my family, it is a way of life. We do not buy meat from grocery stores, we process and eat every bit of what we harvest. We were raised to respect wildlife and the environment in which it lives. There is no greater feeling of respect and gratitude knowing that through hunting and harvesting an animal we will be providing a substantial amount food for our family. As we are raising our young family we are instilling these same core values with our 3 children. Hunting is so highly regarded in our family that my 3 sons have all been to Deer and Elk camp as young as only a few months old. It is very important to my wife and I to pass on this family tradition and legacy as it has been passed on to us. Everyday I look forward and think about the amazing times and opportunities the future hold for hunting with my family. I could never imagine not being able to pass this great tradition on to my children so they can pass it on to theirs.

Thank you for your time.
