

Submitter: Dave White

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

National Education Association (NEA)

? The NEA has twisted and fractured our student's ability to learn under any recognizable educational system.

? The NEA is the cause of the declining test scores. They are teaching to the lowest educated student in a class. Leave no student behind leaves the brightest students behind.

? The NEA removed hunter's safety courses from schools. No child is taught the proper use of a gun.

? The NEA removed discipline from the schools. No teacher or principal can discipline any student for any reason.

? The NEA is the cause of school shootings. With no discipline, ever declining morals, low test scores and abortion the NEA is out of control and they push back parents that want to make a change. On top of this, violent video games introduce children to a world that captivates them where life is seen as cheap and disposable. The school boards do nothing to change it and protect the NEA's stance on making things worse.

? The NEA changed the scientific method to a "consensus". They have eliminated the student's ability to learn from any recognizable scientific education standard. The scientific method is: Hypothesis with confirming data goes to theory. With more factual confirmation the data goes to scientific law.

? What do you think will happen when most school students who graduate public schools find out the schools lied to them and they can't get a job! A certain small percentage are likely to exact the kind of revenge they have been programmed to in their video worlds.

? At Kingsway we teach the correct scientific method, the students learn marketable skills and they remain safe while attending their classes. We also welcome the parents input in what the family is trying to achieve and making that a reality for them.
