

As a community member of a small, rural school district that is currently reviewing an unsolicited, out-of-state based charter school proposal which seeks sponsorship in our district for the purpose of establishing "one or more satellite campuses outside of the District", I am deeply concerned. A district should have a choice to permit or deny a new brick and mortar public charter school within its district boundaries. I wholeheartedly support SB 767 and its intent to give districts authority to accept or reject hosting a school facility that is sponsored by another district within its boundaries.
