

Submitter: John Grimwood
On Behalf Of: Oregon Hunters Association
Committee: House Committee On Rules
Measure: HJR5

I was born in Portland 69 years ago and have lived my entire life in Oregon. As a child I was responsibly introduced to hunting and fishing, and as an added bonus I came to appreciate the beauty and bounty this state offers to so many of us. As an adult I continue to engage in hunting and fishing activities primarily to provide healthy sustenance for my family. This tradition continues on with my two children as they now respectfully provide for themselves and their offspring.

The preservation of Oregon's heritage, the ability to access naturally healthy food sources, and to sustainably engage in the outdoors is extremely important to me. As Oregon's population grows and traditional interests are threatened by dilution, it is critical current and future generations continue to have the ability to lawfully hunt, fish and harvest their food. Your support of HJR 5 is essential to assure current and future Oregonians that they are recognized and their access to engage remains intact.

I look forward to following this resolution's progress and seeing your support for the bill.

Respectfully,
John Grimwood
