Measure: HJR5

Oregon residents have long had a strong interest in sourcing their own foods, including wild and foraged foods. Current initiatives are seeking to prohibit Oregonian's ability to provide for their family in the manner they choose, seeking to strip away the self-sufficiency Oregonians to source their food in a natural and healthy manner. Hunting, fishing and forging is a very human experience and has been a part of our culture since the dawn of time. It is ridiculous that we should have to even defend this. I support this bill and you should too. Thank you
