

Submitter: Toni Carr

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB767

Limiting charter school is the wrong move here. The opposite should happen. There are so many children being underserved in a regular school environment. If anything charter schools should be increased to perhaps 10%. Quit playing with the budget and fund the needs of the kids. No more new buildings, no more new curriculums. Start giving teachers the freedom to be the excellent teachers they are.
