

Submitter: Matthew Marksbury

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB628

My niece has PANS and has been failed by the health care system over and over again. We've watched her slowly deteriorate over the last few years to the point she is now in a wheel chair. Doctors dismiss her condition and insist the problem is in her head. Insurance won't pay anything. My sister has nearly bankrupted herself paying for special doctors and care out of pocket in a search for any way to ease the suffering and bring a more normal life to her daughter. Please vote in support of this bill to help ease the financial burden on those dealing with this condition and help to provide them with the appropriate care.
