

I OPPOSE [HCR 10].

I don't know these people.

From the "Text of [HCR 10]" the Vandermostens have done "good works" but, in my opinion their worthy efforts and community service do not merit state deification.

Why single out the Vandermosten when there are many citizens who participate in their local communities?

There is an acceptable substitute for state deification, the Vandermostens should receive local accolades for their community service.

I sincerely "Thank" Mr. Vandermosten for his service in the United States Navy and his good wife's achievements in their combined local community.

David S. Wall
Mr. Oregon Concur.
