

Submitter: Frank Binns  
On Behalf Of: City View Charter School  
Committee: Senate Committee On Education  
Measure: SB767

My 3 grandchildren all attend a charter school in Oregon. If this bill passes it could mean the end of their school. They are all thriving at this school and it would be sad for this to come to an end. Their school is renting a building and their lease will be up soon. They have been looking for a permanent property for 10 years and have finally found one but it's 0.5 miles outside of the school districts boundary. There are no suitable properties that have been found in all this time within the school districts boundaries. They are on a time crunch now and if they cannot proceed with this property then this will be the end. If this bill passes is really hope that there will be some exemptions for schools in the same position as my grandchildren a school. Don't make this so cut and dry. This school needs to continue.
