

Submitter: NW Coastal Range

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2583

HB 2583 HOUSE COMMITTEE ON BEHAVIORAL HEALTH AND HEALTH CARE

Legislature action to change what does not changed, what a waste of taxpayer funds. Physicians Assistant or Physicians Associate, we are not buying legal, real estate and/or accounting help when we visit a medical facility. PA is a educational degree. Any in a industry facility employee is an associate, so Legislature just opening the door to the medical receptionist or the bookkeeper to relay medical advice of doctor, prepare and administer vaccinations and medications. Oregon is becoming loopier by the year.
