

Submitter: Jimmy Bengé
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB767

If this bill passes without any exceptions then it will mean the end of my daughter charter school. My daughter attend City View Charter School and our lease will end at the end of the school year. We have find new building to buy that it 0.5 miles outside of our schools districts boundary. This bill will prevent them from purchasing our forever home. I plead that you make some exceptions should the bill pass, such as "within so many miles of the districts boundary". So that schools can operate ever so slightly outside of their boundary. Just something that would allow current charter schools to continue operating and serving their students. We hope this bill doesn't pass and you can see how good the chart school
Is for children
