

Submitter: Nick Saba
On Behalf Of: City view charter school
Committee: Senate Committee On Education
Measure: SB767

We are asking that there will be acceptions made for schools that are already operating. Once this bill passes City View Charter School will be outside of the proposed zoning area. Their lease is up this year and they already have plans to move to another location that falls just outside the zoning area. The school is currently split between 2 locations and space is limited. The teachers and staff that make up City View Charter School are amazing and both of my children attending this school are thriving. We want to see this organization grow flourish. They are limited on space currently but this bill will force them back to square 1 with their expansion into a new location. Please make an exception for City View Charter School!!
