I OPPOSE AMENDMENT -1

By repealing ORS 166.660 it removes any lone-wolf committing an unlawful paramilitary activity and places such unlawful acts committed as part of a private paramilitary organization. By doing so, any lone-wolf will dirty the entire private paramilitary organization regardless of no involvement. There is no consequences for the private paramilitary organization outside of convicted members, so what is the purpose of bringing an organization, that is lawful under the constitution, into the definition of an unlawful paramilitary activity?
