

Submitter: Mark Lemley

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB628

As a grandfather who watched his only granddaughter suffer the debilitating ravages of PANS/PANDAS, I have seen how necessary yet difficult it can be to obtain informed treatment without the barriers of payment. PANS/PANDAS can be successfully treated despite the very different manifestation of this condition in children and young adults. The fact that this condition has been difficult to understand should not allow parents to experience consequential financial damage in paying for medical treatment. I support Senate Bill 628. Thank you.
