

Submitter: Cathy Marie Daraee
On Behalf Of: SB 628
Committee: Senate Committee On Health Care
Measure: SB628

My name is Cathy Daraee and I am a registered voter in the state of Oregon. My granddaughter has PANDAS. As a grandma I have personally endured and witnessed the devastation this disease has impacted our family. As a retired RN, I have witnessed the need for prompt and adequate needed treatment such as IVIG to combat this disease. Please pass SB 628 to ensure medical care is available to all children and is covered by the insurance their parents work so hard to have. Do not let insurance companies dictate the essential medical care for Oregon children.
Thank you
