Measure: HB2572

As you consider HB 2572 it is critical that you define ANTIFA as an extremist and terrorist group.

These hoodlums have delighted in beatings, destroying businesses and arson over and over, even to organizing flash mobs expressly to cause damage and attack people and places. They seem to be tolerated by a foolish part of Oregon society, as are some other violent groups.

It is time to call them what they are, and begin arresting and charging them, not ignoring their crimes. These people are arrogant criminals taking advantage of decent Oregonians because of foolish and cowardly officials who do nothing.

If this is omitted from this bill, it is a phony and useless waste of time.

Please do something to rid Oregon of these criminals.
