

Submitter: Donna Bleiler

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3022

I propose that the word "notwithstanding" negates what this bill is attempting to do. The statutes listed gives DEQ broad rule making authority including what this bill is attempting to put an overriding authority over before adoption. As stated, the bill does nothing. To make it function as stated, the "notwithstanding" needs to be changed to "including."

I hope you will see fit to amend the bill to stop DEQ from making laws that the legislature should be making.
