

Submitter: Sandra Birchall

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB704

I am a retired RN and have seen the damage to the health of people who end up in ER due to lack of basic preventive care. Not only is it a tragedy for the person and family involved but also cost all of us in resources and time that could have been used in another way. Had we only provided basic ongoing preventive care for all.
