

Submitter: Lloyd Pedro
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2572

I comes with great disappointment that such a bill like HR HR 2572 would even be considered on a house floor of any Democratic- Republic.

House Bill HR2572 is in direct violation of our Oregon and United States Constitution and there Bill of Rights.

Let it be known that the people of Oregon are now wise to the obvious infiltration into are local, County and State governments by foreign Godless actors with the obvious intent to overthrow our Republic.

Let this be a reminder, the Constitution was designed and written as to illustrate the ordaining of all God's given guaranteed Rights to the People only.

All eyes are upon all of those who openly or privately support any Infringement of Gods given rights of the People as enemies of the people

This House Bill must be destroyed for the sake of all.

We will prevail over any form of tyranny

In Jesus name!!

Amen,
Lloyd E Pedro
