

Submitter: Dan Hansen
On Behalf Of: Isaac Hansen and Gavin Hansen
Committee: Senate Committee On Human Services
Measure: SB646

Please consider passing this bill to give my boys the best possible care. I want to be there for them and this parent program has allowed me to help my wife care for them. Isaac is very attached to me and I can't imagine how it would effect him if I have to leave all day again. We have 3 autistic boys and due to struggles at school 2 are homeschooled. This program has been a huge blessing and the boys are making progress.
