

Submitter: James Wiley

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2571

I often commiserate about the lack of support for non motor vehicle commuters and opportunities for them to safely get from the suburbs to the city and quality routes to get there. There's far too much emphasis put on cars and incentives to drive and not enough opportunity for people to see and learn about alternative transportation.

I would like more people to view ebikes as a viable method of consistent transportation. This is a nice start to supporting bikers.
