

Submitter: Calista Songstad

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB290

Whereas ODE has effectively failed the students of Oregon focusing on political ideology rather than academic success, I recommend you kill this bill. The evidence is in the test scores and the mental health crisis we are now witnessing in our youth.

Control should be at the local district level and they should be reporting to ODE so that we as a state can see what works and help share those successful strategies across the state.
